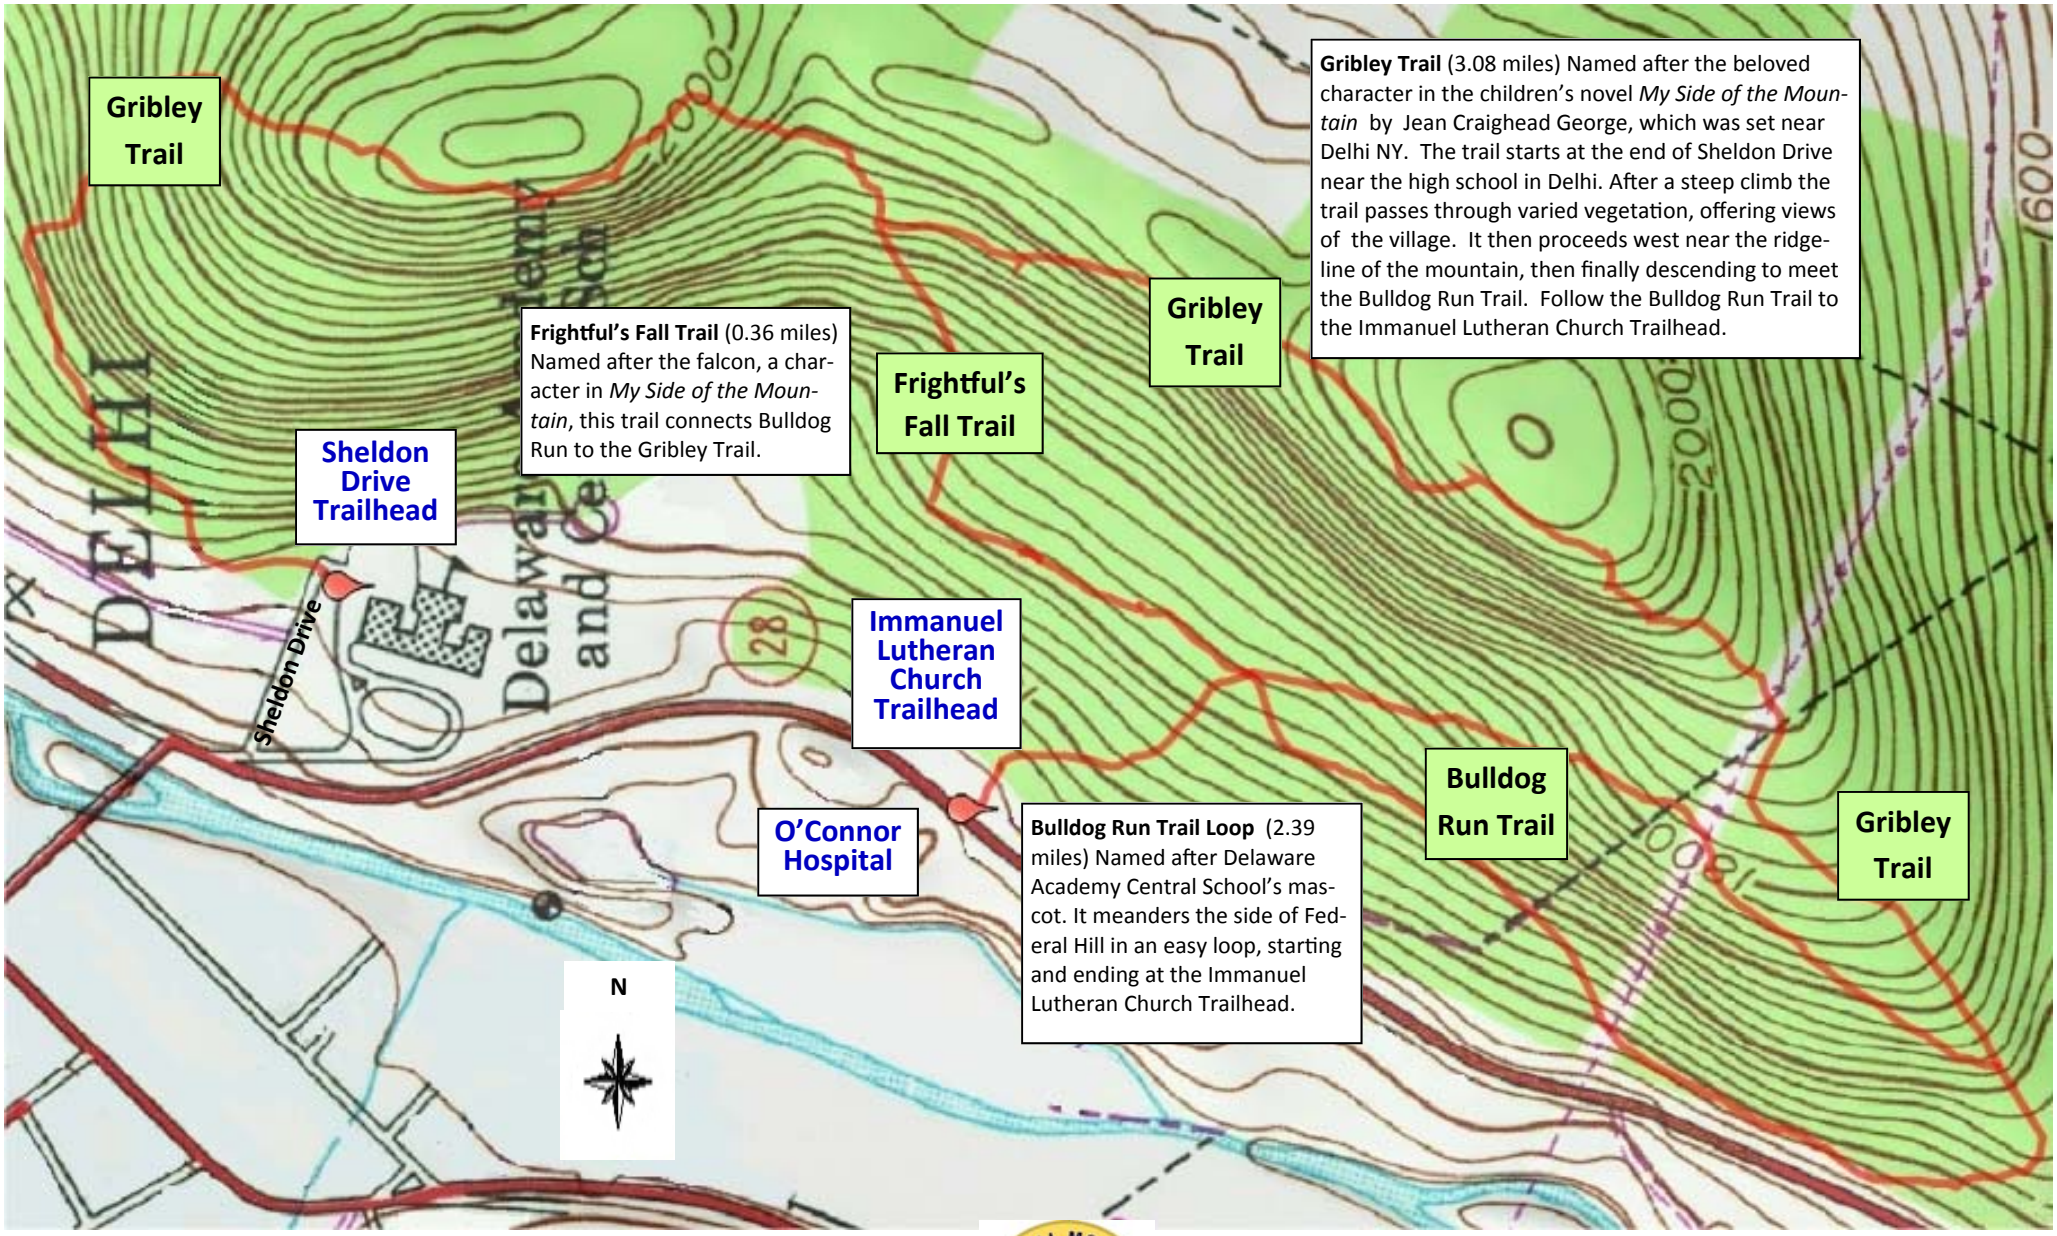
The Delhi Trails Project was made possible through the cooperation of the Village and Town of Delhi, Delaware Academy Central School, and the Immanuel Lutheran Church. The project was generously supported and assisted by Bassett Healthcare Network O'Connor Hospital, Cornell Cooperative Extension of Delaware County, the Rural Health Alliance, The Catskill Ladies Association to Support and Inspire (C.L.A.S.I) and by SUNY Delhi students. The Catskill Mountain Club designed, constructed and maintains the trails.



There is **parking** for the trails at the end of Sheldon Drive, at Immanuel Lutheran Church and at O'Connor Hospital. Use the O'Connor Hospital parking lot when church services or events are going on.

To volunteer to help build or maintain trails like this one, or to become a member, go to www.CatskillMountainClub.org.
